### **Other Information Provided:**

- This type of venture will likely not have quick profit turn around. Focus on long term.
- Wonderful Idea to set up Coops. People investing in our Communities to provide goods and services we all need for self-sufficiency.
- This project should benefit the town of Killam and its citizens first and foremost
- Wasn't sure how to answer the last question, as it really is not a yes or no question. I would like to see projects in Killam, certainly, but would like to see participation available to the entire county.
- I would like to see this as a Killam based organization. Later we can expand if it becomes a success and widen the area.
